

User Guide: Correcting the SBI Tool

Read [Information sheet 6: Small Business Identification \(SBI\) Tool](#) to understand the different circumstances that may trigger updates to the SBI Tool. This guide explains the step-by-step process to request a correction to the SBI Tool.

The SBI Tool is only available through the portal. To access the portal you need a [Digital ID](#) and authorisation from your entity in [Relationship Authorisation Manager](#) to act on its behalf for payment times reporting.

For more information, see **Help and support to use the portal** on the Regulator's website.

The screenshot shows the 'Payment Times Reporting Portal' Home screen. At the top, there are logos for the Australian Government Payment Times Reporting Regulator and the Payment Times Reporting Scheme, along with contact information for Ken Behrens. The main content area features five tiles: 'Maintain entity', 'Small business identification (SBI) tool' (highlighted with a red border), 'Submit and view payment times reports', 'Submit and view applications', and 'Submit notices'. The 'Small business identification (SBI) tool' tile lists actions: uploading a list of supplier ABNs and submitting a notice to correct a business.

Payment Times Reporting Portal

Maintain entity

Keep the information you provide to the Regulator about your reporting entity up to date.

Small business identification (SBI) tool

You can:

- Upload a list of your supplier ABNs to find out which are small businesses for Payment Times Reporting.
- Submit a notice to correct a business in the SBI tool.

Submit and view payment times reports

You can submit a new report, view submitted reports or submit a revised report.

Submit and view applications

Make a new application and view existing applications.

Submit notices

Submit a new notice.

1. Select the **Small Business Identification (SBI) Tool** tile from the Home screen.

The screenshot shows the 'Small business identification (SBI) tool' page. It features two tiles: 'Use the SBI tool' and 'Notification to correct the SBI tool' (highlighted with a red border). Below the tiles is a section titled 'SBI tool notices' containing a table with columns for Notice ID, Submitted Date, Status, and Decision Date. The table lists three notices, with the first two being 'Finalised' and the third being 'Submitted'. A pagination bar at the bottom shows '1' of 1 page.

2. Select the **Notification to correct the SBI Tool** tile.

Step 1: Enter the list of ABNs

When you review the SBI Tool output file, you may consider that the tool has incorrectly classified one or more ABNs as small businesses.

This step lets you enter ABNs you believe are not small businesses.

Review and submit

Complete this form by providing the ABNs of suppliers the reporting entity believes the SBI Tool has incorrectly identified as a small business.

The Regulator is committed to updating the SBI Tool within 28 calendar days of appropriate documentary evidence being provided. Once the Regulator has processed your request, you will receive confirmation.

Reporting entities must provide documentary evidence, such as payment records, showing they have paid \$10 million or more to the supplier in a single income year.

When a reporting entity identifies an incorrectly classified supplier and requests an update to the SBI Tool, it may:

- wait for email confirmation that the SBI Tool has been updated and then re-run the tool
- use the SBI Tool output file with the uncorrected error to prepare the payment times report and note this approach in the report comments. The comments should not contain personal or commercially sensitive information or identify the specific entity/s involved.

Note: Waiting for the SBI Tool to be updated does not remove the requirement to submit a payment times report by the due date.
